B-Collect Data 4-Priority Criteria and Values	B.4.b – Decision Maker Values

Element Description	Capture and use of information about how DOT decision-makers (at both program and executive levels) perceive and value different asset performance levels, management strategies, or other factors.

Benchmark Level 0	Benchmark Level 1	Benchmark Level 2	Benchmark Level 3	Benchmark Level 4
DOT asset program managers and executives don't engage in discussions about the impacts of different asset performance levels.	DOT asset program managers and executives informally discuss impacts of different asset performance levels.	DOT asset program managers and executives have regular (annual or quarterly) meetings to review current and projected asset performance levels and discuss funding priorities.	DOT asset program manager and executive values and preferences are captured in a quantitative fashion (e.g. through stated preference or scoring methods).	Decision-maker values are captured in a quantitative fashion that supports cross-asset / cross-program resource distribution and/or investment prioritization.
